

To whom it may concern;

I truly hope the FCC is not planning on changing broadcasting service that will affect my families ability to receive our current radio broadcastings. Air1 is one of the very few clean radio stations that I will listen to and let my family listen to as well. I enjoy this station enough that I have passed it on to many friends in my local area. I have also seen Air1 stickers on many vehicles, therefore I believe that many others are listening as well. If we are not capable to publicly enjoy a rare clean radio station it will be a great loss. My family's radio listening will be diminished greatly. I would hate to think that my children would have to choose between popular vulgar radio broadcastings without having the freedom to chose an alternative popular morally based competitor. Thank you for your time. And please don't take my Air1 away.
